SDC

The university partnership
Denmark – China

The Sino-Danish Center (SDC) was established in 2010 as a partnership between all eight Danish universities, the Chinese Academy of Sciences (CAS), and the University of Chinese Academy of Sciences (UCAS). Over the past fifteen years, SDC has positioned itself to meet the challenges of tomorrow by:

- Running seven Master's double-degree programs
- Co-funding double-degree PhD positions
- Emphasizing the practical relevance of its education to ensure graduates are in demand and find employment
- Building partnerships between leading Danish and Chinese research environments
- Collaborating with private companies and government institutions

SDC is located at UCAS' Yangqihu Campus, adjacent to Huairou Science City—one of CAS's most ambitious projects—set to become one of the world's most advanced science and innovation hubs.

DANISH CHAMBER OF
COMMERCE IN CHINA

中国丹麦商会

The Danish Chamber of Commerce in China (DCCC) traces its roots back to 1995 when it was informally established as a community for Danish businesses in China. Since then, its core mission has been to represent Danish business interests, fostering strong ties between Denmark and China through a vibrant community, knowledge sharing, and collaboration with key stakeholders. Approved by the Ministry of Commerce (MOFCOM) on October 8, 2000, based on a recommendation from the China Council for the Promotion of International Trade (CCPIT), DCCC is recognized as one of the 17 official chambers in China. The chamber is dedicated to promoting, studying, and advancing commercial and industrial relations, investments, and trade between Denmark and China, utilizing advocacy, knowledge exchange, networking, and events.

INNOVATION CENTRE DENMARK

DANISH IDEAS. GLOBAL SOLUTIONS.

Innovation Centre Denmark (ICDK) in Shanghai serves as a bridge between Danish and Chinese innovation ecosystems, facilitating collaborations in research, development, and business - linking research and commercialization, turning ideas into sustainable solutions and products. It provides support to Danish companies, universities, and institutions seeking to expand their presence or partnerships in China. The center also focuses on promoting Danish expertise in areas like green technology, life sciences, and digital technologies. ICDK provides tailored advice, networking opportunities, and practical assistance to Danish companies looking to enter or expand in the Chinese market. It also promotes educational opportunities in Denmark to Chinese students.

丹中商会

DCBF

DANISH-CHINESE BUSINESS FORUM

The Danish-Chinese Business Forum (DCBF), established in 2005, is a non-profit, politically neutral organization dedicated to fostering trade and business relations between Denmark and China. Acting as a dynamic platform for Danish and Chinese companies, DCBF supports knowledge exchange, networking, and collaboration across industries. By connecting members with valuable insights and opportunities, the forum strengthens bilateral ties and promotes sustainable growth, innovation, and cultural understanding between the two nations.

Danish Industry

Danish Industry (DI) is Denmark's largest, most representative and most influential business and employers' organisation covering most sectors of the Danish economy. DI assists member companies' global growth through commercial offices around the world. The China office has a special focus on ESG and sustainability.
